

**THE UK'S LARGEST
INDEPENDENT LIFT CONTROL
PANEL MANUFACTURER**

HAND WINDING UNITS TRUE POSITION HAND WINDING

Whilst all Lester Control systems are supplied with hand winding and lowering as standard, certain installations and specifications require a more definite notification of which floor level has been reached once the car has been 'wound'.

The remote unit is supplied in its own enclosure, complete with power supply to retro-fit onto existing installations and to be positioned for easier viewing. The kit also comes complete with proximity switches and magnets for the required signaling of the unit.

Head Office & Manufacturing
Lester Control Systems Limited
Unit D 18 Imperial Way
Croydon Surrey CR0 4RR
T: +44(0)20 8288 0668 | F: +44(0)20 8288 0667

Research, Development, Design & Manufacturing
Lester Control Systems Limited
Units 2-4 Wycliffe Industrial Park Leicester Road
Lutterworth Leicestershire LE17 4HG

TECHNICAL DATA

- Primary Voltage 240v or 110v AC
- Output 3.3AH (3.3amps@1 hour cont')
- Power Consumption 60mA

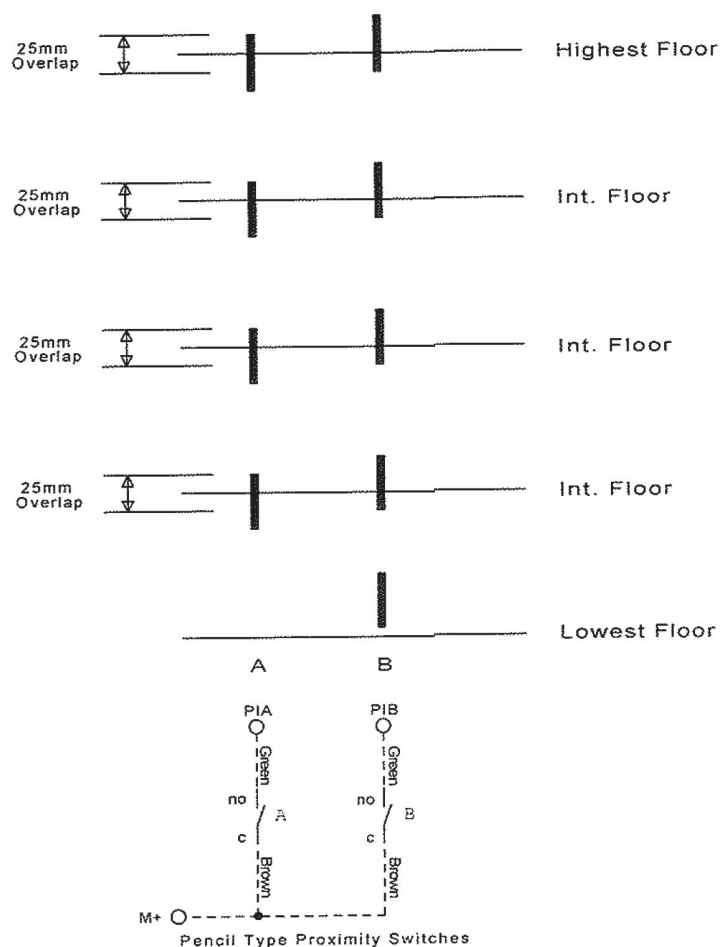

DIMENSIONS

Depth 100mm
Width 200mm
Height 175mm

PRODUCT CODES

- True Position Hand Winding TPHW1
- Proximity PROX
- Bracket LC027
- Magnet 6MAGSTRIP

MAGNET ARRANGEMENT FOR TRUE POSITION HAND WINDING (TPHW1)
