

THE UK'S LARGEST INDEPENDENT LIFT CONTROL PANEL MANUFACTURER

CAR OPERATING PANELS

Flush / Surface Mount / Surface Mount (Eco style) / Full Height

We can offer your clients a choice of flush fitting and surface mounted car operating panels (COPs) depending on the needs of the installation.

Flush COP

We currently manufacture many COPs of all shapes and sizes. Our standard sized flush COP has a 50mm depth to house standard components and we tend to make COPs 70mm deep if a Windcrest unit is being fitted. We custom fit, if required, and are able to use a full array of other manufacturing buttons or indicators. All steelwork is finished to a high standard along with high quality

Full Height Surface Mounted Flush (comes with Back Box)

ADVANTAGES

engraving.

Surface Mount COP

This option is quite popular to adopt if no extra work is being carried out on the existing lift car. Our standard format follows our landing stations with chamfered edges. They are of a robust construction and high quality finish. All engraving is by hand and completed by experienced engravers.

Surface Mounted (Chamfered)
