TAPE HEADS / PROXIMITIES

The tried-and-tested tape head unit offers a basic cost-effective solution to shaft positioning. Interchangeable to a 110/240v supply, the tape head is utilized on a large volume of installations and is available complete with associated parts, including stainless steel tape, magnets and mounting kit.

Proximities

PROXIMITY SWITCHES

Lester Controls supply the Schmersal BN650 range, which has proven to be a reliable and durable switch. Uses of these include door zoning and door selection as well as an alternative to a tape head kit on basic low rise solutions, where it is deemed more suitable.
